Projects

Personal Portfolio

Visit Site:- <https://shrutisangwan07.github.io/Portfolio-Website/>

- In my portfolio, you'll find a diverse range of projects that highlight my skills and experiences.
- I designed and constructed my personal portfolio website to showcase my work and skills.
- It incorporates a clean and user-friendly interface, reflecting my commitment to functionality and aesthetics.

Spotify Clone

Visit Site:- <https://shrutisangwan07.github.io/Spotify-clone/>

- Created a Spotify-inspired music streaming platform with seamless cross-device functionality and interactive playback controls for an optimal user experience.
- play, and pause functionality, offering users complete control over their music.

QuizNia - Online quiz web app

- This quiz Web app was built using HTML, CSS, JavaScript, and its framework React, with a MySQL database to store user and quiz data.
- My role in developing the quiz Web app includes designing the interface and implementing key features.
- I worked closely with three other developers to integrate the front and back end and ensure a seamless user.

Zaykka - Online food ordering -Website

Visit Site:- <https://shrutisangwan07.github.io/ZAYKKA--FoodOrdering/>

- Created an intuitive user interface for browsing menus, selecting items, and placing orders.
- Implemented product catalog, login/signup functionality, and implemented key features.
- Ensured a responsive design, optimizing the website for a smooth user experience across various devices.
- Successfully delivered a user-friendly and visually appealing food ordering platform.

PG Booking-Website

GitHub link to this project:- <https://github.com/ShrutiSangwan07/PGlife>

- A simple ReactJS-based website was created for searching and booking PGs in a particular area.
- Designed and developed the front end and created the back end with a dummy database.
- Developed user interface with JavaScript framework ReactJS, HTML5, and CSS.

- Created an assessable, responsive, and functional user interface to allow visitors on any device to have the same user experience.

Shopify Food Store-CulinaryWonders (Practice Project)

Visit Site:- <https://bboed3-2.myshopify.com/>

Please utilize the password given to gain access:- audews

- Successfully designed and developed an online food store on the Shopify platform. This project allowed me to gain valuable hands-on experience and enhance my web development skills.
 - Designed and structured the website to simulate a real e-commerce environment with an engaging user interface.
 - Familiar with Shopify's features, including its reliable payment processing and streamlined product catalog management in a password-protected environment.
-
