Visit Site:- shruti513.wordpress.com

- In my portfolio, you'll find a diverse range of projects that highlight my skills and experiences.

QuizNia - Online quiz web app (Academic Project)

- This quiz Web app was built using HTML, CSS, JavaScript, and its framework React, with a MySQL database to store user and quiz data.
- My role in developing the quiz Web app includes designing the interface and implementing key features.
- I worked closely with three other developers to integrate the front and back end and ensure a seamless user.

PG Booking-Website

Visit Site:- <https://pglives.com/>

- A simple ReactJS-based website was created for searching and booking PGs in a particular area.
- Designed and developed the front end using HTML, CSS, and JavaScript framework React and created the back end with a dummy database.

SEO service site - WordPress

Visit Site:- <https://livepux.wordpress.com/>

- Developed an SEO service site web page using WordPress, utilizing the Elementor Pro plugin to create a website from scratch.
